手機和我們的生活

我們一天用幾個小時的手機呢？打電話、算錢、看天氣、看地圖、看朋友的留言，都需要手機。

我上個星期坐捷運去參觀一個科學展。出了捷運站以後，我不知道往哪個方向走，馬上看了手機的網路地圖，然後就知道怎麼走了。我從捷運站出去，先往右轉，過了第一個十字路口，再走五分鐘就到了。有手機真方便！

我們每天從家裡出去以後，最怕什麼事？忘了帶錢？忘了帶手機？還是手機壞了？如果世界上沒有手機了，我們的生活會怎麼樣呢？

Cell Phones and Our Life

How many hours do we spend on our cell phones a day? We need cell phones to make phone calls, to calculate, to check weather forecasts, to check a map and to see our friends' messages.

Last week, I took the MRT to visit a science exhibition. After I exited the MRT

station, I didn't know which way to go. I checked the map on the cell phone immediately, then I knew which direction I should take. I went out from the MRT station and took a right turn first. After passing the first intersection, I just walked for another five minutes and I got there! How convenient it is to have a cell phone!

What are you afraid of the most after going out from home every day? Forgetting to bring money? Forgetting to bring the cell phone? Or if your cell phone is broken? If there were no cell phones in the world, what would our lives be like?
